## **Whitepaper**

# Introduction

First of all, i have written this whitepaper because in my opinion paidverts is the best paid4 ever.

It is the first paid4 that I have seen, which pays in Dollars and not in pieces of cents. Consequently you can make money here! The next big point is, you can make real money without winning friends as referral and you have not to make any invest.

The only thing you have to do is to click small advertisements. And for each you get a commission.

If you like to make money on this easy way and with spending a little bit of your time, read the next.

## So, what is paidverts.com?

Paidverts is an advertising platform that pays you to interact with advertisers. Advertisers purchase ads in the system and Paidverts deliver those ads to your account. But remember: Paidverts is not than other ptc sites which you joins and click ads for less than a single pennies. It is totally different. Yes, this is not a joke. You really can earn \$50 a day or \$1500 a month for just clicking some ads every day. I know you won't believe me. But I swear it is right.

This is your way to make money with paidverts.com

1. Before starting you must have to register an account at paidverts. As my referral you have done it before. After the login to your account you have to go to "Members Home Page". Look out for the link "View Paid Ads". Here you find two versions of ads. Both are important. First there are the paid ads. They will bring you real money to your account. The second version of ads is the activation ads. They will bring you BAP (Bonus Ad Points). It is a great importance to click the BAP-ads. They will bring you the paid ads to your account.
2. BAP is a type of paidverts currency which will help you to gain the paid ads. On the first day at paidverts you will only earn BAP not real cash. But there is not so much difference between BAPs and real cash. Each BAP is equal to \$0.0005. You can not convert them to money. But don't worry. Paidverts has a very unique script. Your BAPs will be used by paidverts to deliver you paid ads. For example, today you have 1700 BAPs. Tomorrow when you log in your account you got a \$0.20 ad. Then, you will see 400 BAPs has already been deducted from your BAP-account ( $\$0.0005 \times 400 = \$0.20$ ). So, BAPs are the key to success in paidverts. The more you accumulate – the higher your earnings will be. Paidverts will deduct your BAPs and give you paid ads every day.
3. You will receive every day paid ads but don't forget to click also the activation ads every day. For example if you have 2000 BAP in your account and if there is a \$2 ad in circulation then you will not receive that ad because you don't have enough BAP which paidverts will deduct. But if there is a \$1 ad in circulation, then there is a chance that you might receive that ad. Paid ads

are recycling throughout the day. For example, if you logged in today at 8am and clicked all available ads, after that when you again log in at 4pm then you will see some more ads are available again to click. Try to log in your paidverts account in every 12 hours. An activation ad expires within 24 hours. But remember you only have 18 hours to click paid ads because they expire in within 18 hours.

4. The next is: Try to upgrade your account, when you have enough money in. Upgrading your account at paidverts will cost you only \$0.05. Upgrading your account at paidverts will give you the priority to receive recycled ads. So, what are recycled ads? Recycled ads are those ads which are not clicked by the member and got recycled.

For example, there are two active members you and me. Both of us are active and click their ads every day and earning a lot of money. But today I am goes on a vacation and today I am not active at paidverts. Today we both got 20 ads. You clicked all your ads because you are active today. But I am on vacation and I can't click any ads today. My ads will expire after 18 hours and gets recycled. So, that is called recycled ads. An only upgraded member receives recycled ads.

Upgrading will cost you \$0.05. But one thing you should remember that your upgraded membership can expire tomorrow or it can also be expired after a week. But before expiring it will deliver at least \$1 worth of ads. Try to notice one thing that upgrading will cost you only \$0.05 but it expires after delivering at least \$1 worth of ads. So is upgrading much profitable.

5. And at last: I told you, that paidverts is a revolution in paid4-scene.

Do you know that purchasing ad packs at paidverts is very profitable? At other paid4 when you purchase any advertising package then it costs a large amount of money. But it doesn't happen at paidverts. Each ad pack will cost you \$1,05 and will bring you these things instantly:

25 (728\*90) banner impressions

100 (125\*125) banner impression

50 visits to a website of your choice

**and 3100 Bonus Ad Points will be added to your account.**

Doesn't it look much profitable? With only \$1,05 you will receive all those elements coming instantly in your account. Think a while, you purchased \$1 and they delivers you 3100 BAPs which is equal to \$1.55 ( $3100 * \$0.0005 = \$1.55$ ). So, I recommend you to purchase an ad pack as soon as your account reaches \$1,05 because it is very much profitable.

**Remember that at the beginning you will not earn much money. You should have patience. At paidverts every day your earning will increase. The key to make much money in paidverts are the BAP. The more BAP you can collect, the higher your earnings will be. Purchasing ad packs is the best way to collect high bonus points. Think a while, if you cash out your earnings then the money will stay in your paypal account. But if you use that money in purchasing ads you will receive a full 55% profit.**
